Re: **32BJ Health Fund Minimum Value Certification – Suburban PA Plan**

Actuarial Certification of Minimum Value Requirement of the Affordable Care Act

I am a qualified Actuary and a member of the American Academy of Actuaries. I am familiar with the requirements for, and am qualified to determine, whether or not the plan design tested meets the Minimum Value Requirement of the Affordable Care Act.

The percentage of total allowed costs of benefits provided under the plan is more than 60% and therefore meets the minimum value requirement.
