

BUILDING SERVICE 32BJ PENSION FUND

REPORT OF SUMMARY PLAN INFORMATION

2021 Plan Year

In accordance with Section 104(d) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), the Board of Trustees (the “Trustees”) of the Building Service 32BJ Pension Fund (the “Plan”) is providing the following Report of Summary Plan Information (the “Report”) to each union that represents Plan participants and each employer obligated to contribute to the Plan. Except as otherwise specified, all information in this Report pertains to the plan year beginning July 1, 2021 and ended June 30, 2022 (referred to hereafter as “2021 Plan Year”), unless otherwise indicated.¹

1. Contribution Schedule and Benefit Formula Information.

Contributions

The Plan’s primary sources of income are from contributions made by contributing employers in accordance with collective bargaining agreements or participation agreements and earnings from investments on these amounts. Generally, these agreements provide that the employers contribute to the Plan at a fixed rate on behalf of each covered employee, but the rate and precise terms vary by agreement.

Benefits

The Plan provides various types of benefits and payment options for participants who have met the eligibility requirements as stated in the Plan. Regular pensions, vested/deferred pensions, early retirement pensions and disability pensions are the benefits provided and are available with a spousal joint and survivor option or, if rejected, a 36-month guarantee (12-month guarantee for Program B and 60 or 120-month guarantee for Program D). More detailed information regarding the Plan’s benefit formulas can be found below and in the Plan’s Summary Plan Descriptions.

Program A Benefits

Regular Pension. A Program A participant may retire with a Regular Pension if he or she (a) has attained age 65 and has at least 294 months of Service Credits; or (b) has attained age 62 at the time of termination from Covered Employment and has at least 300 months of Service Credits. The maximum Regular Pension for Program A is \$1,400 per month.

Vested Pension. A Program A participant may retire with a Vested Pension beginning at Normal Retirement Age if he or she has achieved Vested Status. The monthly amount of the Vested Pension payable at Normal Retirement Age is, for participants with at least 240 months of Service Credits, \$3.44 for each month of Service Credit earned before July 1, 2008 and \$3.85 for each month of Service

¹ Certain responses require information for the Plan Years beginning on July 1, 2020 and ending on June 30, 2021 (“2020 Plan Year”) and/or the Plan Year beginning on July 1, 2019 and ending on June 30, 2020 (“2019 Plan Year”).

Credit earned on or after July 1, 2008. For participants with less than 240 months of Service Credits, the monthly amount of the Vested Pension payable is \$3.13 for each month of Service Credit earned before July 1, 2008 and \$3.50 for each month of Service Credit earned on or after July 1, 2008.

Early Retirement Pension. Generally, a Program A participant may retire with an Early Retirement Pension if he or she (a) has attained age 55; and (b) has at least 120 months of Service Credits. The Early Retirement Pension is the amount of the Regular Pension to which the participant would be entitled if he or she were then 65 years of age reduced by $\frac{1}{2}$ of 1% for each month by which the participant is younger than age 65 on the Annuity Starting Date of his or her Early Retirement Pension.

Disability Pension. A Program A participant may retire with a Disability Pension if he or she is (a) permanently and totally disabled; (b) has at least 120 months of Service Credits; and (c) became permanently and totally disabled while working in covered employment. The monthly amount of the Disability Pension is equal to 82% of the Regular Pension or Vested Pension to which the participant would be entitled based upon the number of months of Service Credits the participant has at the time of disability. A participant who is eligible for an Early Retirement Pension will receive the greater of the Disability Pension or the Early Retirement Pension.

Program B Benefits

Regular Pension. A Program B participant may retire on a Regular Pension if he or she has at least 25 Service Credits and either (a) has attained age 65; or (b) has attained age 62 and earned credit for at least 1 Hour of Service under a collective bargaining agreement that requires an employer to contribute at the rate set forth in the collective bargaining agreement as of January 1, 2011. The amount of the Regular Pension depends on the rate the participant's last employer contributed as set forth in the table below.

Vested Pension. A Program B participant may retire with a Vested Pension beginning at Normal Retirement Age if he or she has achieved Vested Status. The amount of the Vested Pension depends on the rate the participant's last employer contributed as set forth in the table below.

Early Retirement Pension. A Program B participant may retire on an Early Retirement Pension if he or she (a) has attained age 55; and (b) has at least 10 Service Credits. The amount of the Early Retirement Pension depends on the rate the participant's last employer contributed as set forth in the table below. This amount is reduced by $\frac{1}{2}$ of 1% for each month by which the participant is younger than age 65 on the Annuity Starting Date of his or her Early Retirement Pension.

Disability Pension. A Program B participant shall be eligible for a Disability Pension if he or she (a) is permanently and totally disabled; (b) has at least 15 Service Credits; (c) has attained age 50; and (d) became permanently and totally disabled while working in covered employment. The amount of the Disability Pension depends on the rate the participant's last employer contributed as set forth in the table below.

April 27, 2023

If the last covered employment was under an agreement requiring the Employer to contribute at this rate for each covered employee per month as of 1/1/2011	The Regular Pension amount would be	The Vested or Disability Pension would equal this amount for each Service Credit	But the pension cannot be more than the maximum amount
\$55.99	\$425	\$17.00	\$425
\$145.60	\$1,000	\$40.00	\$1,000
\$204.16	\$1,160	\$46.40	\$1,160

Program C Benefits

Regular Pension. A Program C participant may retire with a Regular Pension if he or she (a) has attained age 65 and (b) has at least 300 months of Service Credits. The monthly amount of Regular Pension is the highest maximum benefit level at which the participant accrues at least 300 months of earned Service Credits corresponding to the participant's employer's hourly contribution rate as set forth in the table below.

Hourly Contribution Rate	Maximum Monthly Benefit Level
\$.28	\$210
\$.32	\$250
\$.38	\$310
\$.58	\$500
\$.83	\$750
\$1.08	\$1,000

Vested Pension. A Program C participant may retire with a Vested Pension beginning at Normal Retirement Age if he or she has achieved Vested Status. The amount of the Vested Pension is equal to the participant's accrued benefit for each month of Service Credit calculated based upon the maximum benefit level in the collective bargaining agreement covering such participant.

Early Retirement Pension. A Program C participant may retire with an Early Retirement Pension if he or she (a) has attained age 55; and (b) has at least 120 months of Service Credits. The Early Retirement Pension is the amount of the Regular or Vested Pension to which the participant would be entitled if he or she were then 65 years of age reduced by ½ of 1% for each month by which the participant is younger than age 65 on the Annuity Starting Date of his or her Early Retirement Pension.

Disability Pension. A Program C participant shall be eligible for a Disability Pension if he or she (a) is permanently and totally disabled; (b) has at least 180 months of Service Credits; (c) has attained age 50; and (d) became permanently and totally disabled while working in covered employment. The monthly amount of the Disability Pension is equal to 82% of the Regular or Vested Pension to which the participant would be entitled based upon the number of months of Service Credits the participant has at the time of disability. A participant who is eligible for an Early Retirement Pension will receive the greater of the Disability Pension or the Early Retirement Pension.

Program D Benefits

Regular Pension. A Program D participant may retire with a Regular Pension if he or she (a) has attained age 65; (b) has 10 Service Credits with at least one credit earned after participant's Contribution Date and during the Contribution Period; and (c) worked in Covered Employment for at least 500 Hours of Service in a Plan Year that began after you attained age 53. The amount of the Regular Pension depends on the number of Service Credits earned and the monthly Benefit Amount associated with the contribution rate in effect at the time they were earned, subject to the terms of the Funding Improvement Plan. The Regular Pension is based on a maximum of 30 years of Service Credit.

Early Retirement Pension. A Program D participant may retire with an Early Retirement Pension at age 55 if he or she is eligible for a Regular Pension. The Early Retirement Pension is the amount of the Regular Pension to which the participant would be entitled if he or she were then 65 years of age reduced by $\frac{1}{2}$ of 1% for each month by which the participant is younger than age 65 on the Early Retirement Annuity Starting Date.

Special Deferred Pension. A Program D participant may retire with a Special Deferred Pension if he or she (a) has attained the later of age 65 or the participant's age on the 5th anniversary of Plan participation; (b) has at least 15 Service Credits, five of which were earned after the participant's Contribution Date; and (c) has attained age 50 at the time of termination from Covered Employment. The amount of the Special Deferred Pension is calculated in the same manner as the Regular Pension using the monthly Benefit Amount in effect at the time the participant left Covered Employment.

Basic Deferred Pension. A Program D participant may retire with a Basic Deferred Pension if he or she (a) has attained the later of age 65 or the participant's age on the 5th anniversary of Plan participation; and (b) has at least 5 years of Vesting Service (10 years of Vesting Service prior to January 1, 1991); or (c) at least 10 years of participation in the Plan; or (d) at least 5 Service Credits (10 years of Service Credits prior to January 1, 1991) and has worked in Covered Employment for at least 500 Hours of Service in a Plan Year after attaining age 62. The amount of the Basic Deferred Pension is calculated in the same manner as the Regular Pension reduced by 10%. The amount of the Basic Deferred Pension is based on a maximum of $33 \frac{1}{3}$ Service Credits that produces the greatest benefit.

Disability Pension. A Program D participant shall be eligible for a Disability Pension if he or she (a) is totally and permanently disabled; (b) has at least 15 Service Credits at least one of which was earned after the participant's contribution date; (c) became totally and permanently disabled after attaining age 45 but before attaining age 65; and (d) worked in Covered Employment for at least 500 Hours of Service in the 12 months prior to becoming totally disabled. The monthly amount of the Disability Pension is based on the amount of the Early Retirement Pension that the participant would have been entitled to had the participant retired on the date of disability. The amount would be 10% greater than the amount of the Early Retirement Pension but no greater than the Regular Pension amount had the participant attained age 65 on the date of disability.

For more information on contributions and benefits, see also the Rehabilitation Plan per item 5 below.

2. Number of Contributing Employers.

For the 2021 Plan Year, 3,951 employers were obligated to contribute to the Plan.

3. Employers Contributing More than 5%.

During the 2021 Plan Year, ABM Janitorial Services Inc. contributed more than 5% of the total contributions to the Plan.

4. Participants for Whom No Contributions Were Made.

The chart below sets out the number of participants (active, terminated vested and retired) whose last contributing employer had withdrawn from the plan by the beginning of the relevant plan year for whom no contributions were made to the Plan by any contributing employer for the 2021 Plan Year and the two preceding plan years:

	2021 Plan Year	2020 Plan Year	2019 Plan Year
Participants	1,040	1,739	63

5. Plan Funding Status.

On September 28, 2020 and September 28, 2021, the actuary certified that for the Plan years beginning July 1, 2020 and July 1, 2021, respectively, the Plan remains in critical status under the Pension Protection Act of 2006 (“PPA”). The significance of entering critical status is that the Plan’s Trustees are required by law to adopt a “rehabilitation plan,” consistent with the requirements of the PPA, designed to improve the Plan’s financial health and to allow it to emerge from critical status. The Trustees adopted a rehabilitation plan consistent with this requirement.

Under the rehabilitation plan, one schedule (the Preferred Schedule) provides for an increase in employer contributions only, while another schedule (the Default Schedule) provides for an increase in employer contributions, reduces accrued benefits and future benefit accruals, and reduces or eliminates the following benefits and benefit alternatives: (i) any certain months payment guarantees; (ii) disability benefits (not yet in pay status); (iii) early retirement benefits; (iv) 12-month pre-retirement benefit guarantee for Program B; and (v) 300 months or 25 year service credit pension payable at age 62.

Consistent with the PPA, if the collective bargaining agreements were not amended to adopt the Preferred Schedule or the Default Schedule, mandatory surcharges on employer contributions were established as follows: (i) effective for contributions on and after December 1, 2010 through June 30, 2011, the surcharge was 5% of the employer’s contributions to the Plan; and (ii) effective July 1, 2011, the surcharge is 10% of the employer’s contributions to the Plan. The 10% surcharge remains in effect until the employer negotiates an agreement consistent with the Rehabilitation Plan. Surcharges do not generate benefit accruals.

To obtain a copy of the Plan’s Rehabilitation Plan and the actuarial and financial data that demonstrate the actions taken by the Plan toward fiscal improvement, please contact the Plan’s designated representative as indicated on page 5.

6. Number of Employers That Withdrew in Preceding Plan Year.

During the 2020 Plan Year, there were 15 employers who withdrew from the Plan.

As reported on the June 30, 2022 Form 5500, the actual or estimated amount of employer withdrawal liability assessed was \$5,127,665.

7. Transaction Information.

The Fund did not merge with another plan and did not receive a transfer of assets and liabilities from any other plan during the 2021 Plan Year.

8. Amortization Extension or Shortfall Funding Method Information.

The Plan did not apply for or receive an amortization extension under ERISA §304(d) or §431(d) of the Internal Revenue Code of 1986 for the 2021 Plan Year.

The Plan did not use the shortfall funding method (as described in ERISA §305) for the 2021 Plan Year.

9. Right to Additional Information.

Any contributing employer or participating union under the Plan may request from the Plan Administrator (see below), in writing, a copy of the documents listed below, but not more than one copy of any such document during any one 12-month period. The Plan Administrator may charge a reasonable amount to cover the cost of providing the document(s) requested.

- The Plan's Annual Report (Form 5500).
- The Plan's Summary Plan Description.
- Any Summaries of Material Modification to the Plan.
